25 Years of Saving Golden Retrievers

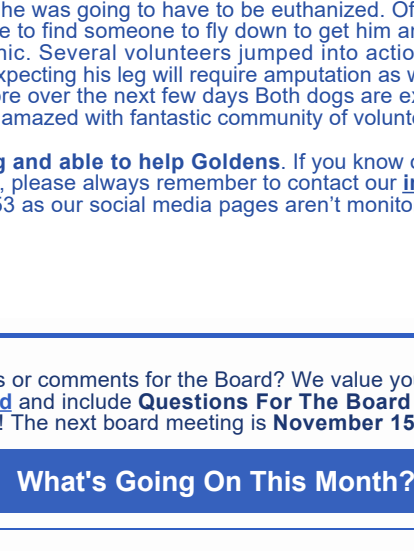

October 2023

A Message From Our President

Happy Fall 'y'all!

Well yes, it is fall but sadly the weather is not cooperating. If you made it out to the Golden Pawloozza we hope you had a blast! It was so much fun to see so many long-time GRR friends and make many new ones. We had over 120 people with over 62 dogs. We gave out a lot of GRR swag, had a wonderful commemorative cake, fantastic silent auction items and a big group photo. We also had a celebratory toast to cheer our twenty-five years! Continuing to celebrate our 25 years of Golden Retriever rescue has been nothing short of fun, exciting and a lot of hard work. HOWEVER, it's been worth every bit of our hard work.

I want to share a great story about Bentley 23-082, who was surrendered to us because he had allergies so bad that his family was struggling with managing his medical care. When he came in his ears were so badly infected that black gunk was oozing out of them, and the vet could barely get the scope into them to see inside. We did a little research and realized that a much drier climate would be better for him, and he would be so much more comfortable. We did a little networking with some of the other Golden Retriever rescue groups and Retriever Rescue of Las Vegas was the perfect option for Bentley. We went to work on a plan to get him headed west.

After a few weeks of living in a different climate, our hopes were fulfilled and we received the best news we could have imagined. Bentley's allergies have almost cleared up and his ear infections are gone! His vet is very excited at the progress he is seeing so quickly, and he's top of the line for adoption by his forever family. We couldn't be happier that we were able to network to give Bentley the best quality of life.

We've had two beautiful dogs, Violet and Aster, come to GRR at the end of last month who really needed our help. Violet is an 8-month-old female who was found on the side of the road sitting in an old wicker chair with lots of scrapes and infested with ticks. A Good Samaritan took her in and got her cleaned up. When it was evident that she had no owner, GRR was contacted. At the intake evaluation we learned that she has the sweetest personality and knew we needed to help her. She has an injury that we have now learned may require her rear leg to be amputated.

Aster's age is not known to us just yet. He was in the Pharr shelter in South Texas. He has an injury to his rear foot that is badly infected, and the shelter contacted us for an emergency rescue, or he was going to have to be euthanized. Of course, we had to help. Plans were put in place to find someone to fly down to get him and bring him to Austin to an emergency vet clinic. Several volunteers jumped into action to help get Aster into GRR's care. We are expecting his leg will require amputation as well. Stay tuned for more details as we learn more over the next few days. Both dogs are examples of GRR's "why" and we continue to be amazed with fantastic community of volunteers.

GRR is ready, willing and able to help Golden Retrievers. If you know of a Golden in need or one to be surrendered, please always contact our intake team or email us at [info@grr-nc.org](mailto:info@grr-nc.org) or call our hotline at 512-659-4653 as our social media pages aren't monitored for posts of dogs in need or need for rescue.

Warm regards,  
Michele

Do you have questions or comments for the Board? We value your input. Please send a note to the GRR Board and include **Questions For The Board** in the subject line and we hope to hear from you! The next board meeting is **November 15, 2023**.

What's Going On This Month?

### From FAX Machines and Sticky Notes to Social Media

In the past three newsletters, we shared how Gold Ribbon Rescue was founded and how our Intake and Adoption processes have evolved. This month, we want to share how our communication processes have evolved and adapted to the digital world, resulting in faster and easier communications for the rescue of our Golden Retrievers.

In 1998, we only had FAX machines, paper forms and the telephone - plus lots of notepads and yellow sticky notes to stay in sync. Contracts, medical notes, etc. were on paper and were filed away for safekeeping in a volunteer's garage! Our old newsletter, *The Gold Ribbon Gazette*, was printed and mailed out by USPS until 2010.

In 2001, we created the GRR website and began gathering applications online. Some of our potential adopters and fosters didn't have a computer, so we mailed them a paper application, which had to be mailed back to GRR and input manually by a volunteer. We could not always get a digital photo of a dog being surrendered because most of us only had standard cameras. Since we often didn't have photos, we drove many miles only to discover that the dog was not a Golden.

Considerable volunteer time was spent working around these limitations, which greatly slowed the time needed to rescue a dog. It was a seat-of-the-pants approach, but we did it despite these obstacles - dogs still needed to be rescued! By 2010, we evolved and moved most processes online.

Social media has totally changed how GRR shares information with our community and vice-versa. Today, we have three Facebook sites - our FB community, our public page and a volunteer page, plus Instagram and Twitter pages. Whether our news is about a lost dog, an upcoming social event, a training webinar or more to social media, we have quickly announce news. Our social media communities total over 19,000 followers.

Our current newsletter, *Golden Tales*, reaches over 2000 people and Golden Notes reaches all volunteers. We are able to better educate our volunteers via training webinars and hold business meetings via Zoom. Our foster coordinators, foster families and medical teams share information on each dog as a team to make sure we have the best care for each dog. This keeps everyone in sync on what a particular dog needs. Our website provides a central place for potential adopters who can read about our available dogs. It also provides information about upcoming events and activities, as well as, facts and advice about living with Golden Retrievers.

In 2023, we began researching various technology tools that will work to integrate our records and make it easier to share data. We're also working to reduce technology costs. We are rolling out this project soon.

Saving Golden Retrievers and finding their special homes is our purpose and passion - we have rescued and placed over 3500 dogs in our 25 years. Our enhanced communication and technology led to good numbers and made life possible.

Shake, Rattle and Roll!

### Shake Shack at the Domain

11228 South Domain Drive, Austin

### Shake Shack on Lamar

1100 South Lamar Blvd, Austin

Grab your pup and head to **Shake Shack** on October 16th and October 23rd to help raise money for GRR! Shake Shack has assorted burgers and shakes for you and a **Pooch-Fri** for your pup.

They are pet-friendly and dogs are welcome at their outdoor tables. Best of all, when you visit on October 16th and October 23rd, **use the code DONATE25** when checking out and GRR will receive 25% of your purchase. How simple is that? Please RSVP for you and a Pooch-Fri for your pup.

Thank you for supporting Gold Ribbon Rescue.

### Celebrating the Past and Preparing for the Future:

A \$25K Challenge - 25 Years of Rescue

Thanks to our generous supporters, we've hit 43% of our goal to raise \$25,000 for Incoming Golden Retrievers. Thank you to all who have donated to our \$25K challenge!

But we need your help to hit our goal. As one of our supporters said, "A donation is the least I can do to help future Golden Retrievers - in honor of the joy, love and laughter that my own GRR dogs have given me. I'm thankful GRR was able to rescue my dogs. They are such an enormous gift to me."

As Golden lovers, we all know the positive and powerful impact our Golden Retrievers have on our daily lives. Please help us reach our \$25,000 goal to ensure future Golden Retrievers a well-deserved life, too.

The More You Know...

**Leash Reactivity Webinar**  
As promised, we are resuming our training webinars this fall and Michele Mendoza, with **Every Dog Behavior Training**, will be presenting the next webinar on **Leash Reactivity**. This is open to all to attend. (strongly urge all volunteers to attend as social media, to reach out to families you've worked with or who have fostered or adopted from GRR. Extend the invitation!)  
**Topic:** GRR Webinars - Leash Reactivity  
**Presenter:** Michele Mendoza, Founder CBC-CA, CPDT-KA  
**Date:** October 12, 2023  
**Time:** 6:00 p.m.  
**Join Zoom Meeting**  
<https://us02web.zoom.us/j/89776982983>

**Volunteer Orientation Webinar**  
A high-level overview of GRR and learn about volunteer opportunities. Grab a computer and a friend, a loved one, even your dog! All are welcome! Please RSVP with **Danise Martinez** if you are planning to attend.

**Date:** Tuesday, October 17  
**When:** 6:00-7:15 pm  
**Meeting details:**  
**Click here to join the meeting**  
**Meeting ID:** 212 005 5543  
**Passcode:** Vx5zVr  
**QR**  
**Call in (audio only)**  
1-888-208-0321, 8650565659  
Phone Conference ID: 850 505 6596

**Gold Ribbon Rescue Year End Business Meeting and Election**  
This meeting will include a general update on 2023 and the Board of Directors election. This is an in-person meeting and all members are welcome to attend. You may be a member, have attended a business meeting in the past 12 months and volunteered for at least 20 hours in order to be eligible to vote.

**Date:** October 29, 2023  
**Time:** 11:00 a.m. - 12:00 p.m.  
**Where:** The home of Hara and Corby Coates  
**RSVP:** Please RSVP to the GRR Board by **October 27th** if you plan to attend. We'll include the address in our reply.

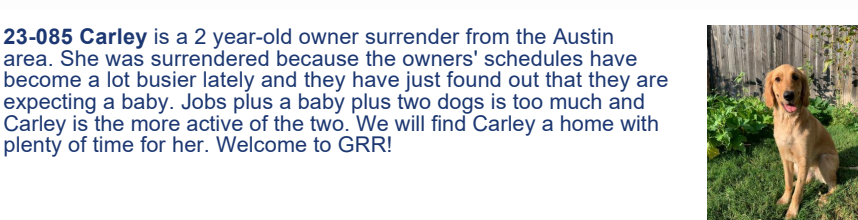

The 2024 GRR Calendar is Available for Pre-Order Now!

**23-084 Harper** is a stray who was found by the side of a highway 10:45 shortly before dark and was scooped up by a Good Samaritan. She was found in a field, and she was found with a broken wicker chair by the side of a busy road and the Good Samaritan felt (rightfully) so that she was in danger so they rescued her.

**23-085 Carley** is a 2 year-old owner surrender from the Austin area. She was surrendered because the owners' schedules became a lot busier lately and they have just found out that they are expecting a baby. Jobs plus a baby plus two dogs is too much and Carley is the more active of the two. We will find Carley a home with plenty of time for her. Welcome to GRR!

**23-086 Nash** is a 1-year-old owner surrender from the Georgetown area. He was surrendered because a few months after he was adopted, his mom's family in Ireland changed drastically and she no longer had the time to spend with this big, sweet puppy who needs attention and lots of exercise. She knew this was no life for him so she contacted GRR for help. Nash is with his FPA family who is giving him lots of attention and decompression time. Welcome to GRR Nash!

**23-087 Kayce** is a 8-month-old owner surrender from Kyle, TX who sheds too much (too much of a house cleaning issue), is too big and they don't have enough Luke's adoption along with him. She was surrendered because the owners' schedules became a lot busier lately and they have just found out that they are expecting a baby. Jobs plus a baby plus two dogs is too much and Carley is the more active of the two. We will find Carley a home with plenty of time for her. Welcome to GRR!

**23-088 Macey** is a 5 year-old owner surrender from Sour Lake, TX who sheds too much (too much of a house cleaning issue), is too big and they don't have enough Luke's adoption along with him. She was surrendered because the owners' schedules became a lot busier lately and they have just found out that they are expecting a baby. Jobs plus a baby plus two dogs is too much and Carley is the more active of the two. We will find Carley a home with plenty of time for her. Welcome to GRR!

**23-089 London** was turned into the Williamson County Regional Animal Shelter by a citizen who said she was found in Leander. The shelter notified us that they had a beautiful Golden Retriever and just knew someone was going to claim her, but sadly, they did not, so she has joined the GRR family.

The shelter reported that London was very cuddly and sweet, but she was very stressed at the shelter. They asked that we be there at exactly 5:45 p.m. when her stay hold was over to get her out. Many thanks to our volunteer, Lynn, who picked her up right on time and drove her to her foster home. Special thanks also to our new foster home, who immediately said yes when they got the call for help.

We look forward to getting to know London. So far she is settling in nicely with her foster parents. The photo is of London finally sleeping soundly and feeling safe.

**23-090 Violet** is around 8 months-old and was found on the roadside about 3 weeks ago by Good Samaritans. She was sitting on a broken wicker chair by the side of a busy road and the Good Samaritan felt (rightfully) so that she was in danger so they rescued her.

Violet is now a GRR dog and is fostering with a GRR medical coordinator. She has a broken femur that has not healed correctly and we are awaiting additional diagnosis. It's possible she'll need her leg amputated. She's in good hands with GRR!

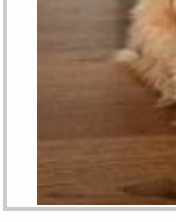

**Spencer 23-091** sneaked in right before the end of the month. We don't know much about him, other than he was found as a stray and had his stay hold at Schertz Animal Shelter. Spencer is going to be boarded at Converse for a few days while he waits for his neuter surgery. But, but it is a safe place and Converse will take care of him, he's in good hands with GRR!

**23-094 Aster** is an urgent, last minute intake who came into GRR on September 30th. He is badly injured and volunteers Dave and Lisa flew their plane to McAllen to pick him up and bring him to Austin. GRR volunteer Mary met the plane and transported him to CTVSH for care. We don't have an age or know how the injuries happened and literally know nothing about Aster other than that he needs our help. Aster comes from the Pharr Animal Center in McAllen, the same shelter we received 23-076 Rio from. More details to come as we learn more about Aster.

**23-095 Poppy** arrived in our care late yesterday. This little girl was found by a Good Samaritan a few weeks ago. She is estimated to be about 8 months old. That's all that we know at this point. The name Poppy symbolizes love and remembrance.

**Editor's Note:** You may have noticed that the intake numbers are out of sequence. We have two Golden Retrievers coming in on October 2nd that have been assigned the missing numbers.

My Dreams Really Did Come True! I Got Adopted!

### Charles Lee Pancake (AKA CLP)

is one sweet and lucky boy! He was adopted by his foster family - Troy, Joyce and their son, on September 1st! He had so many challenges with his digestive system and finding a food he could tolerate, along with many restrictions and rules for feeding! Joyce and Troy were in it from the very beginning, making sure he stuck with his special food only, no special treats or even including another dog's food bowl after they finished!

They were thrilled to adopt him into their family, along with GRR dogs Marley and Allison (his siblings) and it happened just shortly after the loss of their GRR foster, Moby. Congratulations to Joyce and Troy and Ryan. We know CLP is looking forward to wonderful things in his future!

**Rasta 23-079**  
Rasta was adopted by long-time volunteers Donnie and Cheryl on September 2nd and we couldn't be more pleased. Time will tell whether Rasta (is the Colonel), but the whole family, including canine sisters Row and Lilly, are thrilled that he has joined their ranks! Rasta celebrated his 4th birthday with GRR and because he is totally enamored of carrots, he of course had a doggy carrot cake!

**Luke 23-074**  
Luke was adopted on September 8th by Grayson who made a point of thanking everyone at GRR for vetting him thoroughly and handling Luke's adoption along with care. He is so excited to become Luke's family, enjoy daily walks together, and to introduce him to the rest of his friend group. Both human and canine!

**Scoop 23-077**  
Scoop (aka Cooper) was adopted on September 10th by Donnie and Nicky and was three teenagers, as well as finally being accepted as a family member by the family cat. Congratulations to Scoop and the entire family!

**Charlie 22-063**  
Please join us in a long awaited celebration! Charlie was adopted on September 23rd! Who knew this boy would be a GRR boy for over a year before he found his happy ending? It sure took a village - with worms, GI issues, two hip replacements and a few interesting ingested items. We are beyond thrilled for Charlie, Jill and Monica and his new furry foster siblings, Rylee and June!

This is a match made in heaven! Huge thanks to everyone who played a role in Charlie's GRR journey. There are a whole bunch of GRR volunteers who will forever be a part of Charlie's story.

**Goldie 23-080**  
Goldie, now known as Macy, was adopted on September 25th by Darian and Todd. They had a 15-year-old Golden Retriever, coming to share her absolute sweetness and love with us. Last week we lost her. We are devastated.

Gypsy's beauty was surpassed only by her loving nature and her devotion to her mom and dad. She took short separations in stride - two to three hours for napping while the folks were away at church or shopping. She was never seen without a squeaker toy in her mouth, at home and on every walk and Gold Ribbon Rescue Home Visit.

Gypsy's beauty was surpassed only by her loving nature and her devotion to her mom and dad. She took short separations in stride - two to three hours for napping while the folks were away at church or shopping. She was never seen without a squeaker toy in her mouth, at home and on every walk and Gold Ribbon Rescue Home Visit.
